

# Journal of NanoScience Technology

The Journal of NanoScience Technology publishes the results of original research and reviews relating to nanotechnology used in various aspect of science. Papers of either an experimental will be welcomed on a fully international basis. The emphasis is on novel nano science concerning on synthesizing and characterization of nanomaterials, modeling and computational study of nanostructure and covers special topics in nanotechnology. Papers may relate to any of the conventional categories of nanotechnologies: nanomedicine, green technology, mechanical, mareial and etc. The central objective is to sustain a high standard of research quality by means of appropriate reviewing procedures.

## *Editors*

### **S. Akbari**

*Editor-in-chief*

Founder of the Nanoscietec Company,  
Germany

### **J. A. Pomposo**

*Senior Editor*

Materials Physics Center (CSIC-UPV/EHU),  
Spain

### **S. K. Sharma**

*Senior Editor*

Department of Metallurgical and Materials  
Engineering, Punjab Engineering College,  
India

### **A. Ranjkesh**

*Senior Editor*

Jožef Stefan Institute,  
Slovenia

### **S. Anand Kumar**

*Editor*

Indian Institute of Technology Jammu,  
India

### **M. Kumar R**

*Editor*

Assistant Professor, Vellore Institute of Technology,  
Tamil Nadu,  
India

### **S. K. Singh**

*Editor*

Indian Institue of Petroleum,  
India

### **A. Yadav**

*Editor*

Newcastle University and Durham University,  
United Kingdom

### **C. Pandey**

*Editor*

IIT Jodhpur,  
India

### **R. Parween**

*Editor*

Singapore University of Technology and Design,  
Singapore

### **N. Srivastava**

*Editor*

Indian Institute of Technology Bombay,  
India

### **S. Kumar**

*Editor*

Universität Technische Wien,  
Austria

### **A. Kumar**

*Editor*

Department of thermal and energy engineering,  
School of Mechanical Engineering, VIT Vellore,  
India
